

Hypercom T4220 terminal

T4220 EFTPOS terminal

The T4220 is a high performance countertop EFTPOS terminal and is the most capable dial and IP solution in the industry today. The T42 family from Hypercom is the next generation of sleek, powerful and adaptable payment terminals.

On top of standard EFTPOS capabilities, the T4220 offers a range of advanced features such as the option to add your company logo and your own personalised advertising messages on each customer receipt.

The T4220 is the next generation of EFTPOS that provides greater performance and a wide variety of features at fantastic value.

“ We love the fact that this terminal is so sleek and stylish. The T4220 is nice and compact so it occupies very little space on our countertop, and our customers find the large keys very easy to use. ”

TONY CEDERWALL
Beach Hut, Auckland

Business benefits

Confidence in security

The T4220 is EMV & PCI PED compliant, so it meets the latest global security standards. It also comes with Triple DES approved PIN entry.

Communication options

The T4220 has dual communication options to meet your business environment. You can choose either an IP (broadband) connection or a dial connection, so that your EFTPOS communications can easily fit in with the rest of your business technology. If there are any issues with the IP connection this smart terminal will automatically switch to the dial connection.

Increased flexibility

With the option to be used with or without an external PIN pad, the T4220 provides great flexibility. This sleek and stylish terminal can be utilised as a terminal and PIN pad in one or you can add a separate PIN pad to make it a two-piece unit.

High performance

The T4220 is a high performance terminal packed with features that can bring your business added value. This powerful terminal offers a range of advanced features including hospitality tipping, bar tabbing and front desk accounts software. You can also increase revenue with your choice of additional applications such as mobile top-up, loyalty cards and fuel cards.
